		<ul style="list-style-type: none"> Well written. The break down is great for any age and development. Even just to look at the pictures and create your own story based on the pictures would be fun. At the end it gives a blank outline for my hand washing routine, where you can enter your own pictures. 	
FREE Coronavirus / COVID-19 Social Stories	https://www.teacherspayteachers.com/Product/FREE-Coronavirus-COVID-19-Social-Stories-5319239	<ul style="list-style-type: none"> There are a 7 different social stories available. <ol style="list-style-type: none"> About COVID-19 Washing Hands School Closures Distance Learning Being Flexible with School Work at Home When Loved Ones are Sick I am Sick All of the social stories are available with pictures above the words. The first three are also available with just words and one picture on a page If you are working on teaching your child to read these stories would be perfect. You download the pdf file. They are all there once you download. I really like the stories about school closures and Distance learning. 	Free
COVID-19 Getting Tested	Available through CBHS	<ul style="list-style-type: none"> Colourful illustrations Explains the testing procedure & what to expect 	Free
You Tube virtual Story	https://www.youtube.com/watch?v=D A SsZFyw0w	<ul style="list-style-type: none"> Fun interactive social story about COVID-19 Light and fun 4.5 and 7.5 year old approved 	Free

Personal Hygiene Document Name	Website Address	Description	Other Features
Teaching Personal Hygiene	https://www.brainpop.com/health/diseases/injuriesandconditions/coronavirus/?fbclid=IwA%20R3yympi3ECpEeYwBmiKcp5vNyYlyB2aXAOUhTk8mA6oBI5GDQTjWC3Ifxy	<ul style="list-style-type: none"> Movie is first. This movie explains in simple terms, easy for children to grasp. Fun images, lots of colour. A great way to explain the virus and social distancing. Quiz is second. There is a review or graded option. The quiz has big easy to read words. Broken down into multiple choice style questions. <ul style="list-style-type: none"> If your child selects the correct image it makes a beep sound with a smiley face. If they select the incorrect answer it simply draws a red line through. It allows you to continue selecting until the correct answer is selected. At the end of the quiz, your score appears with the option to review your answers. Challenge is next. This is a more challenging type of quiz. There is more than one correct answer. There are also choices for the type of quiz. Multiple Response, Fill sentence, Matching List, and Venn Diagram. Make-a-Map. In this section you can create a map. Your child can type in the names they wish in word boxes. There are also fun bright pictures to add in. then you can save or print your map. 	<p>The website is broken down in to very colourful squares. Fun and easy to get around.</p> <p>Hope this helps you get a brief idea. My favourite part of this website was the video. Definitely worth a watch.</p>

		<ul style="list-style-type: none"> • Make-a-Movie in this section your or your child can create a movie. It is a bit more abstract and not as simple to do as the Make-a-map section. There are options to add your voice and pick how you would like the movie to go as well as the subject of the movie. • Creative coding this section is for creating a code. For a demo you will be asked to create an account. Without creating an account it breaks it down. This is a higher level of difficulty. It does break it down for different levels based on the curriculum from K-12. • Related reading this section is heavier reading about the history of viruses. There are two different options. Way Back when, a history of viruses, then an In Depth option. Here is explains more in depth about how COVID 19 started. • Worksheet this is a very basic worksheet. Asking how you to explain how we can prevent the spread of COVID-19. It gives you the option to print and fill out. You could fill it out in advance and it could be another visual for you child. • Graphic Organizer suggest away to talk and then write down facts and fears about the virus. Again you have the option to print and fill out. • Vocabulary this section is set up like a game. It gives you a work i.e. Virus and you or your child fill in the definition. Then there is an arrow to move onto the next.
